Product Description

Pioneer GPP474934 Self-propelled Lawn Mower

The Pioneer Pro 21-inch Contractor Self-Propelled Lawnmower is a heavy-duty, commercial-grade lawnmower built for lawn and landscape professionals, commercial cutters, and high-demand users. This unit is manufactured to withstand heavy usage and the toughest conditions with heavy-duty controls and cables, a robust axle system, and steel reinforcing plates. Equipped with a robust 190cc Briggs & Stratton® 850 Commercial Series engine, this machine delivers the power, performance, and durability demanded by the pros.

TOP FEATURES

- Features a powerful, reliable 190cc Briggs & Stratton® 850 Commercial Series engine
 - Easy to start with ReadyStart® starting system, no prime or choke required, just pull for power
 - 3-speed self-propelled commercial transmission for speeds from 2.3 to 4.1 MPH
 - Blade Brake System (BBC) disengages the blade while the engine continues to run
 - Single point, one-touch height adjuster selects cutting heights of 1-15/16 to 4-7/8 inches
 - Equipped with professional-grade aluminum diecast wheels with heavy-duty rubber tires
 - Durable construction throughout with heavy-duty cables, controls, connecting rods, axle bolts, bumpers steel rear discharge chute, and extra capacity 2.3-bushel collection bag
 - 3-in-1 option to mulch, bag, or side discharge to best match conditions
-
