Product Description

PL1803V PLUGR® Reciprocating Aerator

The 18” PLUGR is ideal for smaller property aeration or rentals. No add-on weights are required and reciprocating cam-driven tines propel the unit forward and drive cores up to 2.75” deep even in hard soil conditions, offering higher quality aeration than traditional drums. The unti can do up to 22,000 sq.ft. per hour, is simple to operate for homeowners, easy to steer without lifting and requires no add-on weights. The new ergonomic handle is ISO mounted for reduced vibration and folds allowing for compact transportation and storage. Only 4 tines and no chains along with a no-tool removable cover makes for easy maintenance. Pictured: PL1803V

Features -

User Friendly Controls:

Handle has fingertip controlled bail for engaging drive / tine. To raise and lower tines, the tine retractor lever is comfortably top mounted.

One Piece Lift-Off Removable Cover:

Offers ease of maintenance. Easy-release rubberized fasteners offer quick and easy hood removal for 100% access to all components.

Four Tensile Hardened Thin Wall Tines:

Simple, durable screw in design makes service quick and easy. In / out reciprocating tine motion produces less compaction on the inner surface of the hole compared to spoon designs.

Updated Wheel Bearings:

Prolong the life of the wheels.

Easy Fold Handle:

Handle folds for compact transport and storage. (Wheels shown are former model)

ISO Mounted Handle:

Helps reduce vibration offering fatigue free operation so you can complete more work in less time.

Longer Belt Span:

Improves belt de-clutching and increases belt life.

Text to Video:

Feature offers quick view of operating instructions on your mobile device.
