Product Description

2022 TRX 561 Finish Cut Zero Turn Mower

Let's get down to business. You don't invest in tools for your business unless there's a positive return. That’s why faster ROI is engineered into the DNA of a TRX mower. Now you can reduce man-hours, bid for more lucrative jobs, and get more business. The TRX was designed for those who know only the best will do.

Low ground pressure and high traction are key to getting more jobs done with less damage. Limiting ground pressure reduces spinning, rutting, and damaging underground structures - especially on soft ground. The high traction from the TRX track system allows for better control, especially on slopes.

Aero Deck™
The Aero Deck™ high-output cutting system gives the precision cut you count on. Features recessed anti-scalp wheels and fully adjustable baffles so you can get a professional-grade cut every time.

HV All-Terrain Deck
Heavy-duty, fabricated, reinforced steel deck with six swing blades that absorb impact when contacting solid objects and sloped back rear discharge design that efficiently processes material.
