Product Description

Bearcat SC5540B 5-inch PTO Chipper/Shredder/Blower

MAINTAIN POWER. REDUCE MAINTENANCE.

Using a Crary® Bear Cat® PTO machine reduces engine maintenance, giving you more uptime to work. With a wide selection of PTO machines ready to go to work for you, it's time to match your tractor with a Crary Bear Cat PTO Chipper and Chipper/Shredder.

Get the job done and into the truck quickly and easily with the SC5540B! Heavy-duty construction, the SC5540B PTO 3-point hitch Chipper/Shredder weighs 720 pounds – this means years of dependable service. The double-banded belt drive gives a more positive transfer of power.

A great machine to move from job to job, the SC5540B is the machine landscapers and golf courses trust to clean up, move debris and make mulch. A manual-feed Chipper/Shredder without a screen reduces plugging, especially with damp material. The 20.6" x 0.75" thick, 145-pound dynamically-balanced rotor is equipped with 4 reversible chipper blades and 36 shredder knives.

NOTE – For Use On Tractors with PTO Horsepower Ratings From 25 hp to 45 hp

CE compliant model is available.
